

RIWPS Member,

Your fellow native plant lovers welcome you to submit short accounts of personal, plant-based adventures and observations. What are you seeing and doing in the nature, your own landscape or other plant-based undertakings?

How it works:

- Please write about 250 words on anything that strikes your fancy or would interest the RIWPS community.
- Email a Word or Pages file or a Google doc to office@riwps.org. Attach (please don't embed them in your email) a few photos, say no more than 4.
- Our blog editor will get in touch with you.
- Be sure to subscribe on the blog page so that you'll be notified when others post something new. Invite all your plant loving friends to subscribe as well!
